

1. What's new?

tutodoc offers the macro `\tdocstartproj` and different environments to indicate quickly and clearly what has been done during the latest changes.¹

Note.

Icons are obtained via the `fontawesome5` package, and text spacing is managed by the `\tdocicon` macro.

- Info 2...

Note.

The use of an icon followed by the correct spacing just before the text is done via the `\tdocicon` macro. For example, `\tdocicon{faBed}{Fatigued}` product Fatigued.
