

1. Without a coloured strip

The rendering of `\begin{tdocshowcase}...\end{tdocshowcase}` with a coloured strip may not be suitable, or sometimes may not be acceptable despite the work done by `clrstrip`. It is possible not to use a coloured strip, as we will see straight away.

Example .1. *The use of `\begin{tdocshowcase}[nostripe]...\end{tdocshowcase}` indicate to not use `clrstrip`. Here is an example.*

```
\begin{tdocshowcase}[nostripe]
  Bla, bla, bla, bla, bla, bla, bla, bla, bla, bla, bla, bla, bla...
\end{tdocshowcase}
```

This will produce the following.

————— *Start of the real output* —————
Bla, bla, bla, bla, bla, bla, bla, bla, bla, bla, bla...
————— *End of the real output* —————

Example .2 (Change the colors and/or the texts).

```
\begin{tdocshowcase}[nostripe,
  before    = My beginning,
  after     = My end,
  colstripe = green,
  coltext   = purple]
  Bla, bla, bla, bla, bla, bla, bla, bla, bla, bla, bla, bla, bla...
\end{tdocshowcase}
```

This will produce the following horror.

————— *My beginning* —————
Bla, bla, bla, bla, bla, bla, bla, bla, bla, bla, bla...
————— *My end* —————
