

# The `tutodoc` class - Tutorial-style documentation

«AUTHOR»

«DATE-N-VERSION»

## Abstract

The `tutodoc` class<sup>1</sup> is used by its author to semantically produce documentation of L<sup>A</sup>T<sub>E</sub>X packages and classes in a tutorial style,<sup>2</sup> and with a sober rendering for reading on screen.

***Remark :*** *this documentation is also available in «OTHER-LANGS».*

---

<sup>1</sup>The name comes from “*tuto·rial-type doc·umentation*”.

<sup>2</sup>The idea is to produce an efficient PDF file that can be browsed for one-off needs. This is generally what is expected of coding documentation.
