

1. Flashy content

Note.

The formatting proposed here is the default one, but others are possible by changing the theme: see the gallery of use cases in the appendix page ?? . As for the icons, they are obtained via the `fontawesome5` package, and the `\tdocicon` macro which manages the spacing relatively to the text.^a

^aFor example, `\fbox{\tdocicon{faBed}{Fatigued}}` produces  Fatigued .

a. A tip

The `tdoctrp` environment is used to give tips. Here's how to use it.

```
\begin{tdoctrp}
  A tip.
\end{tdoctrp}
```

 Tip.

A tip.

```
\begin{tdoctrp}[Small title]
  Useful?
\end{tdoctrp}
```

 Tip (Small title).

Useful?

 Tip.

Sometimes, highlighted content can be reduced to a list. In this case, the formatting can be improved as follows where we use the *wide* option from the `enumitem` package imported by this documentation.

```
\begin{tdoctrp}[Little elegant]
  \begin{enumerate}
    \item Point 1.
    \item Point 2.
  \end{enumerate}
\end{tdoctrp}
VERSUS.
\begin{tdoctrp}[More elegant]
  \begin{enumerate}[wide]
    \item Point 1.
    \item Point 2.
  \end{enumerate}
\end{tdoctrp}
```

 Tip (Little elegant).

1. Point 1.

2. Point 2.

VERSUS.

 Tip (More elegant).

1. Point 1.

2. Point 2.

b. Informative note

The `tdocnote` environment is used to highlight useful information. Here's how to use it.

```
\begin{tdocnote}
  Something useful to tell you...
\end{tdocnote}
```

 Note.

Something useful to tell you...

```
\begin{tdocnote}[Small title]
  Useful?
\end{tdocnote}
```

 Note (Small title).

Useful?

c. Something important

The `tdocimp` environment is used to indicate something important but harmless.

<pre>\begin{tdocimp} Important and harmless. \end{tdocimp}</pre>	 Important. <i>Important and harmless.</i>
<pre>\begin{tdocimp}[Small title] Useful? \end{tdocimp}</pre>	 Important (Small title). <i>Useful?</i>

d. Caution about a delicate point

The `tdoccaut` environment is used to indicate a delicate point to the user. Here's how to use it.

<pre>\begin{tdoccaut} Caution, caution... \end{tdoccaut}</pre>	 Caution. <i>Caution, caution...</i>
<pre>\begin{tdoccaut}[Small title] Useful? \end{tdoccaut}</pre>	 Caution (Small title). <i>Useful?</i>

e. Warning of danger

The `tdocwarn` environment is used to warn the user of a trap to avoid. Here's how to use it.

<pre>\begin{tdocwarn} Avoid the dangers... \end{tdocwarn}</pre>	 Warning. <i>Avoid the dangers...</i>
<pre>\begin{tdocwarn}[Small title] Useful? \end{tdocwarn}</pre>	 Warning (Small title). <i>Useful?</i>
