## I. What does that mean in "English"?

The macro \tdocinEN and its starred version are useless for English speakers because they have the following effects.

Cool and top stand for \tdocinEN\*{cool} and \tdocinEN{top}.

Cool and top stand for "cool" and "top" in English.

The macro \tdocinEN and its starred version are based on \tdocquote: for example, "semantic" is obtained via tdocquote(semantic).

i Note.

As the text "in English" is translated into the language detected by tutodoc, the macro  $\t tdocinent and$  its starred version become useful for non-English speakers.
