A very big link, but at least we can see it.

II. LATEX listings

Typing in on-line code such as $E = m c^2 \neq \frac{14}$ is useful, as is showing use cases such as the following one.

```
Formatted \LaTeX\ code is great: $E = m c^2$ or $pi \neq \frac{3}{14}$. Formatted LATeX code is great: E = mc^2 or pi \neq \frac{3}{14}.
```

There's also a less invasive side-by-side mode. Nice! No?
