⚡ Break.
- The `showcase` environment and its descendants: the `color` key has been renamed `colstripe`.
- The macro `\tdoclinkcolor` becomes the color `tutodoc@link@color` for internal use.

♦ New.

- The `theme` class option lets you choose different formatting themes.
- Change log: `tdoctech` environment for technical information.
- The `showcase` environment and its descendants: the `coltext` key can also be used to change text color.
- New features have been documented.

✦ Update.

- Change log: for the `tdocupdate` environment, the icon $\boxed{\circlearrowright}$ replaces the old icon $\boxed{\text{✦}}$.
