ꭶ Break.

- The `\begin{*}` ... `\end{*}`tdoccaution environment has been renamed `\begin{*}` ... `\end{*}`tdoccaut for simplified input.

- Content highlighting: examples and remarks, indicated via the `\begin{*}` ... `\end{*}`tdocexa and `\begin{*}` ... `\end{*}`tdocrem environments, are always numbered, and share the same counter.

⬧ New.

- Change log: the `\tdocstartproj` macro is used to manage the case of the first public version.

- Code factorization: the `\tdocicon` macro is responsible for adding icons in front of text.

⭒ Update.

- Content highlighting: reduced space around content in colored frames.
