1. Without a coloured strip

The rendering of `\begin{tdocshowcase}`...`\end{tdocshowcase}` with a coloured strip may not be suitable, or sometimes may not be acceptable despite the work done by `clrstrip`. It is possible not to use a coloured strip, as we will see straight away.

Example .1. *The use of `\begin{tdocshowcase}[nostripe]`...`\end{tdocshowcase}` indicate to not use `clrstrip`. Here is an example.*

```
\begin{tdocshowcase}[nostripe]
    Bla, bla, bla, bla, bla, bla, bla, bla, bla, bla, bla, bla, bla...
\end{tdocshowcase}
```

This will produce the following.

─────────────── **Start of the real output** ───────────────

Bla, bla, bla, bla, bla, bla, bla, bla, bla, bla, bla, bla, bla...

─────────────── **End of the real output** ───────────────

Example .2 (Change the colors and/or the texts)**.**

```
\begin{tdocshowcase}[nostripe,
                     before   = My beginning,
                     after    = My end,
                     colstripe = green,
                     coltext   = purple]
    Bla, bla, bla, bla, bla, bla, bla, bla, bla, bla, bla, bla, bla...
\end{tdocshowcase}
```

This will produce the following horror.

─────────────── **My beginning** ───────────────

Bla, bla, bla, bla, bla, bla, bla, bla, bla, bla, bla, bla, bla...

─────────────── **My end** ───────────────
