The `tutodoc` class
Tutorial-style documentation

«AUTHOR»

«DATE-N-VERSION»

The `tutodoc` class [1] is used by its author to semantically produce documentation of LaTeX packages and classes in a tutorial style [2] using a sober rendering for reading on screen.

Remark : *this documentation is also available in «DOC-LANGS».*

[1] The name comes from "*tuto·rial-type* `doc·umentation`".

[2] The idea is to produce an efficient PDF file that can be browsed for one-off needs. This is generally what is expected of coding documentation.
