1. Without a colour strip

The rendering of \begin{tdocshowcase} ...\end{tdocshowcase} with a coloured strip may not be suitable, or sometimes may not be acceptable despite the work done by clrstrip. It is possible not to use a coloured strip, as we will see straight away.

Example .1. *The use of \begin{tdocshowcase}[nostripe] ...\end{tdocshowcase} indicate to not use clrstrip. Here is an example.*

```
\begin{tdocshowcase}[nostripe]
    Bla, bla, bla, bla, bla, bla, bla, bla, bla, bla, bla, bla, bla...
\end{tdocshowcase}
```

This will produce the following.

—————————— **Start of the real output** ——————————

Bla, bla, bla, bla, bla, bla, bla, bla, bla, bla, bla, bla, bla...

—————————— **End of the real output** ——————————

Example .2 (Change the colors and/or the texts)**.**

```
\begin{tdocshowcase}[nostripe,
                     before    = My beginning,
                     after     = My end,
                     colstripe = green,
                     coltext   = purple]
    Bla, bla, bla, bla, bla, bla, bla, bla, bla, bla, bla, bla, bla...
\end{tdocshowcase}
```

This will produce the following horror.

—————————— **My beginning** ——————————

Bla, bla, bla, bla, bla, bla, bla, bla, bla, bla, bla, bla, bla...

—————————— **My end** ——————————
