1. Without a colour strip

The rendering of `\begin{tdocshowcase}`...`\end{tdocshowcase}` with a coloured strip may not be suitable, or sometimes may not be acceptable despite the work done by `clrstrip`. It is possible not to use a coloured strip, as we will see straight away.

Example .1. *The use of `\begin{tdocshowcase}[nostripe]`...`\end{tdocshowcase}` indicate to not use `clrstrip`. Here is an example.*

```
\begin{tdocshowcase}[nostripe]
    Bla, bla, bla, bla, bla, bla, bla, bla, bla, bla, bla, bla, bla...
\end{tdocshowcase}
```

This will produce the following.

—————————— Start of the real output ——————————

Bla, bla, bla, bla, bla, bla, bla, bla, bla, bla, bla, bla, bla...

—————————— End of the real output ——————————

Example .2 (Change the default colour and/or text)**.**

```
\begin{tdocshowcase}[nostripe,
                     before = My beginning,
                     after  = My end,
                     color  = green]
    Bla, bla, bla, bla, bla, bla, bla, bla, bla, bla, bla, bla, bla...
\end{tdocshowcase}
```

This will produce the following.

—————————— My beginning ——————————

Bla, bla, bla, bla, bla, bla, bla, bla, bla, bla, bla, bla, bla...

—————————— My end ——————————
